

Submittal Form: Geothermal Board

Infloor's Sales Service SW Geothermal Board is designed to incorporate geothermal heat pumps into hydronic systems. It includes all of the mechanical needs for most hydronic systems and can be utilized for systems with 1-7 zones. For larger systems, multiple boards can be used.

| Geothermal Board | | | |
|------------------|---------|-----------|----------|
| Part # | # Zones | Pipe Size | Pump |
| 32200 | 1 | 3/4" | UP 15-58 |
| 32201 | 2 | 3/4" | UP 15-58 |
| 32202 | 3 | 1" | UP 15-58 |
| 32203 | 4 | 1" | UP 15-58 |
| 32204 | 5 | 1-1/4" | UP 26-99 |
| 32205 | 6 | 1-1/4" | UP 26-99 |
| 32206 | 7 | 1-1/4" | UP 26-99 |

Board Size: 34" x 54"

Included:

- System Pump
- Microbubble Air Eliminator
- Pressure Differential Bypass Valve
- Zone Control Valves
- SWC-5 Zone Controller
(two included for 6-7 zone boards)
- 24VAC Transformer
